3. Applicant's amendment of claims 23, 33, and 41 has overcome the rejection of claims 23-47 under 35 U.S.C. § 112. Likewise, the rejection is withdrawn.
4. Applicant's arguments with respect to the rejections under 35 U.S.C. § 103(a) have been considered but are moot in view of the examiner's amendment below. In light of the examiner's amendment, the rejections are withdrawn.

Authorization for this examiner's amendment was given in a telephone interview with Marina Portnova, Reg. No. 45,750 on 5/23/08. In the interview, it was agreed to amend the independent claims to include details regarding calculation of the similarity number according to the discussion on page 10 of the originally filed specification.

The application has been amended as follows:

Please amend claims 23, 32, 33, and 41 as follows:

IN THE CLAIMS

23. (Currently Amended): In line 15, after "elements" and before "," please insert:

, wherein when the similar program elements are similar program code identifiers, the similarity number is calculated by combining a number of matching alphabetical characters in the similar program code identifiers with a fraction of a number of matching numerals in the similar program code identifiers

32. (Currently Amended): In line 1, after "claim," delete "31" and insert "30".

33. (Currently Amended): In line 16, after "elements" and before "," please insert:

, wherein when the similar program elements are similar program code identifiers, the similarity number is calculated by combining a number of matching alphabetical

characters in the similar program code identifiers with a fraction of a number of matching numerals in the similar program code identifiers

41. (Currently Amended): In line 18, after "elements" and before "," please insert:

, wherein when the similar program elements are similar program code identifiers, the similarity number is calculated by combining a number of matching alphabetical characters in the similar program code identifiers with a fraction of a number of matching numerals in the similar program code identifiers

Allowable Subject Matter

6. Claims 23-30 and 32-53 are allowed.
7. The following is an examiner's statement of reasons for allowance:

The examiner indicated that this application would be in condition for allowance if the independent claims 23, 33, and 41 are amended to include the features of a similarity number that is calculated by combining a number of matching alphabetical characters in the similar program code identifiers with a fraction of a number of matching numerals in the similar program code identifiers. The above features, taken in combination with all remaining features of the independent claim are not taught or suggested by the prior art of record. The applicant agreed to amend the independent claims 23, 33, and 41 as indicated by the examiner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
